

## Niagara

### Gas Coalescer Filter Element

### Element Information

		CRC	436	003	B	CE
<b>Media</b>						
Microglass						
<b>Dimensions</b>						
<b>OD</b>	<b>Length</b>					
4 = 4-1/2"	36 = 36"					
	72 = 72"					
<b>Efficiency</b>						
003 = 0.3μ						
01 = 1μ						
<b>Gasket Material</b>						
B = Buna						
V = Viton						
<b>End Cap Configuration</b>						
Blank = Double Open Ended						
CE = Closed End with Bolt Hole						
CP = Closed End with Post						
<b>Consult Factory</b>						

### Construction

End Caps: Carbon Steel  
Inner Core: Carbon Steel  
Outer Core: Sintered Polypropylene

### Recommended Operating Conditions

Change out Differential Pressure: 15 PSI  
Maximum Differential Pressure: 35 PSI  
Maximum Temperature: 160° F
