

The next generation of elements to enhance the performance of Enervac oil purification equipment. The YB Series elements are designed with advanced pour structure to maximize capillary action and ensure complete utilization of the element surface area.

YB	4	30	-	02	-	C
Media Type Pleated Serial Fiberglass	Nominal OD 4 = 4" 3 = 3"	Nominal Length 15 = 15" 30 = 30"		Length code 01 02		Seal Material C =
Drain Layer Cotton						
Cap Material Carbon Steel						

Recommended Operating Conditions	
Flow Direction	Inside → Out
Sealing configuration	Flat Gaskets
Maximum Differential	15 PSID
Maximum Temperature	300° F
