UNIFORM STATUTORY DECLARATION FORM FOR THE REGISTRATION OF FITTING DESIGNS

Newfoundland and Labrador

Manufacturers Name: Clack Ratewook Stroughells, Citol And 149 Plant Locations: Stroughell, Shou, USA A Pipe filtrag, including couplings, uses, aboves, 7.9, plags, unlows, pipe cape, or reducers B Planguer: all franças	or .
Menufacturers Address: 1603 Febr printers; browneds. (biol. USA Catalogue of Fittings to be registered. Circle one Category only Catalogue of Fittings to be registered. Circle one Category only Catalogue of Fittings to be registered. Circle one Category only Catalogue of Fittings to be registered. Circle one Category only Catalogue of Fittings to be registered on the line of the Standard Construction on the catalogue of the Catalogue of Catalogue on the Catalogue of Cat	
Estation of Fittings to be registered. Circle one Category only A Pips fittings, including couplings, tess, elbows, Ye, plugs, unifone, pipe capa, or reducers B Flanges: all flanges C Vales: all line valves D Expansion joints, feetble connections, and hose assemblies: at types Strainers, fitter, separations, and steem traps C Designation joints, feetble connections, and hose assemblies: at types C Designation pressure gauges, levels gauges, sight glasses, levels, or pressure transmitters C Designation generally read processure gauges, levels gauges, sight glasses, levels, or pressure broaded by ASME; Calculations where applications are pressure protection on blood and pressure gauges. In the components are all of the fill too one of the above categorides. ERRIST List of supportion that do not fell into one of the above categorides. ERRIST List of supportion that the top of the second of	
A Plan Blangs. Including couplings, less, albows, Ys, plags, unlore, plan capt, or reducers Branger: all flanges C Valves: all fine valves Expansion lights, flexible connections, and hose assemblies: all types Extransives. Injury, retain pressure gauges, level gauges, sight glasses, levels, or pressure supported by ASME; Calculations where applications, pressure vasses, plping and flasible plugs. Pressure validing components that do not fall into one of the above categories. N Nuclear components: Class 1 Class 2 Class 3 (Meeting CNSC or ASME requirements) Strew Manufactures Name, Trademark, or Logio as it will ancest on the product for which registration is sought. The dimensions, materials of construction, pressure ratings, and destinings are in accordance with the herein named standards. Inturther declare that the manufacturities regulated by a Quality Control Program which extends to each plant where fabrication constriction, pressure believing it to be true, and knowledge trayers and knowledge trayers and knowledge that it is of the same force and effect as if made under onth. This registration must be revalidated after ton (This pregistration must be revalidated after ton (This Agent Control and the product of the product for the purpose and make this solemn declaration consists where applied to the purpose and make this solemn declaration consists where solices and the product for the purpose and make this solemn declaration consists where solices and the product for the purpose and make this solemn declaration or in part and the product of the purpose of t	Carel as
B Flanges: all flanges C valves: all fine valves D Expansion joints, flexible connections, and hose assemblies: all types Extraines, filters, separations, and steem traps (E) Measuring devices, including pressure gauges, vivel gauges, sight glasses, levels, or pressure transmittors C Dertified capacity-rated pressure relief devices acceptable as primary over pressure protection on bollers, pressure vessels, plping and fusible plugs H Pleasure retaining components: Class 1 Class 2 Class 3 C	
C Valves: all line valves Expansion joints, feebbe connections, and hose essemblies: all types Expansion joints, feebbe connections, and hose essemblies: all types Expansion joints, feebbe connections, and steem traps Cheasuring devices, including pressure gauges, level gauges, sight glasses, levels, or pressure transmitters C certified capacity-rated pressure reliaf devices acceptable as primary over pressure protection on boilers, pressure vessels, ploing and fusible plugs IN Nuclear components: Class 1 Class 2 Class 3	I
E. Striners, filters, separators, and steem traps Cheasuring devices, including pressure gauges, level gauges, sight glasses, levels, or pressure transmitters Certified capacity-rated pressure relief devices acceptable as primary over pressure protection on boilers, pressure vessels, piping and fusible plugs In Pressure relating components that do not feld into one of the above categories In Nuclear components: Class 1 Class 2 Class 3 Class	
Estrates, namer, speciators, and sequent leaps (Messuring pressuring sugges, level gauges, sight glasses, levels, or pressure transmitters of certified capacity-rated pressure relief devices acceptable as primary over pressure protection on bolles, pressure vessels, plping and fisible plugs. In Pressure including components that do not rivel find one of the above categories. New Manufacturers Name, Trademark, or Long as it will access on the product of Welladd or Windows (Institution Street S	Ξ;
transmitting Certified capacity-rated pressure relief devices acceptable as primary over pressure protection on bollers, pressure vessels, piping and fisible plugs N Nuclear components: Class 1	
boliers, pressure vessels, plping and fishlic plugs N Nuclear components: Class 1 Class 2 Class 3 (Meeting CNSC or ASME requirements) Show Manufacturers Name, Trademark, or Logo as It will ancest on the product ERNST . JEREISON . PENBERTHY List of supporting documentation and identification of the actual litems to be registered: Product Literature Drawings Calculations Declaration: List of supporting documentation and identification of the actual litems to be registered: Product Literature Drawings Calculations Declaration: List of supporting documentation and identification of the actual litems to be registered: Declaration: List of supporting documentation and identification of the actual litems to be registered: Product Literature Drawings Calculations Declaration: List of supporting documentation and identification of the actual litems to be registered: Declaration: List of supporting documentation and identification of the actual litems to be registered: Product Literature Drawings Calculations Declaration: [sea note 3) employed by Clark Reliance LLC and being the person heving full in my knowledge represents the product for which registration is sought. The dimensions, materials of construction, pressure that the manufacturing in registration occurs in whole or in part and verified by supported with very lateral propose and in make this solemn declaration conscient believing it to be true, and knowledge that it is of the same force and effect as if made under oath. Signature of Declarar: Declarad before me as CARR REMANCE LUC This	
H Pressure retaining components: Class 1	
N Nuclear components: Class 1 Class 2 Class 3 (Meeting CNSC or ASME requirements) Show Manufacturers Name, Tradement, or Lorde as it will appear on the product ERNST, JERRISON. PENBERTHY* List of supporting documentation and identification of the actual items to be registered: Product Literature Drawings Calculations Declaration: [see note 3) employed by Clark Reliance LLC and being the person having full a more specific program which exists the information contained in this form is true to my knowledge represents the product for which registration is sought. The dimensions, materials of construction, pressure to ratings, and identification markings are in accordance with the herein named standards. Turther declare that the manufacture verified by issueuphness series. See being suitable for that purpose and I make this solemn declaration conscient belleving it to be true, and knowled that it is of the same force and effect as if made under oath. Signature of Declarer: Signature of Declarer: CARR REMANCE LUC This way of March A 2025 Commissioner of Oaths Or Notary Public: (sign) Charles seal to the fight) This registration must be revalidated after ten (1998) CRN: OF11916.5 Add. 4 REGISTERED OF 11916.5 N Add REGISTERED OF 11916.5 N Add REGISTERED OS / 30 / 20 / 35 Signed Sig
